Adobe Suites – strengths are AE, PP, PS, AU, LR, BR

Maya 3D animation software

Microsoft Office

Dragon Frame Stop motion Software

Artistic Direction

I was the artistic Director of a large upscale salon in Toronto, Canada for 5 years beginning in 2000 and ending in 2005. During that time, I worked on many different sets, film, television, video, commercial, as a hair and make-up artist. I am at home on any set and know how they run. I'm able to communicate with photographers, videographers, make-up and hair in their own terms. This intimate knowledge of every aspect of a creative project is the strength I plan to carry forward and utilize for the company that chooses to work with me in this capacity.

I never want to stop learning new things and engaging new ideas.
